

Mission of the Sacred Heart food Pantry

October, 2015

The mission of the Sacred Heart Food Pantry is to provide

1. A wide range of food for families or individuals struggling with food insecurity
2. Nutritious and quality food products that collectively make up all components of a well-rounded nutritious diet and
3. Nutritional information that encourage families to eat properly.

Furthermore, in keeping with the gospel values of the Society of St. Vincent de Paul, an important component of the mission is to provide a compassionate and a welcoming atmosphere to families seeking help.
